

45 Dollars for the 45th Presidency

Do you want to be part of tomorrow's government, or a victim of it? Are you willing to gamble on career politicians? Do you want a President that listens to the people, or one that listens to the special interests? Would you give \$45 to return our country to the people?

That's why we're asking friends like you to contribute \$45, the numerical number of the next President – to help Jon Greenspon get the word out. It may not seem like much, but your \$45 will make an important resource in America's ability to put the people back in control of their own government.

But that means relying on your donation to helping restore the Constitution to Washington. Your small donation can add up in restoring America to Americans.

If you'd like to be kept informed on the campaign to reclaim America for Americans, please go to the Greenspon website.
